

The Insurance Service Office (ISO), through their Public Protection Classification Program (PPC), issues ratings to Fire Departments throughout the country for the effectiveness of their fire protection services and equipment to protect their community. The ISO rating is a numerical grading system and is one of the primary elements used by the insurance industry to develop premium rates for residential and commercial businesses.

The El Dorado Hills Fire Department is proud to report that the ISO has rated our District as a Class 3/3x.

**Below is the criteria for each Class rating:**

CLASS 3 = Properties within five road miles of a fire station and within 1,000 feet of a fire hydrant.

CLASS 3X = Properties within five road miles of a fire station but beyond 1,000 feet of a hydrant.

CLASS 10 = Properties beyond five road miles of a fire station.

CLASS 10W = Properties within five to seven miles of a fire station with a recognized water supply within a 1,000 feet.

**Fire Hydrant:**

- To determine location of closest fire hydrant please visit <https://www.eid.org/i-want-to/locate-a-firehydrant>

**Fire Apparatus:**

- To find out the type of apparatus and the water capacity and pumping, please visit <https://edhfire.com/about-us/operations/apparatus>
